Weights: The masses are calculated in accordance to EU regulation 120/2012 and NCC codes of practice 304. The Mass in Running Order (MRO) comprises:  
 1. The mass of the empty caravan as supplied by Swift.  
 2. 10kg allowance for LPG.  
 3. 10kg allowance for a leisure battery.  
 The MRO is calculated with the fresh water tank, toilet flush tank and water heater heater empty. If you travel with water in the fresh water tank, toilet flush tank and the water heater heater, the maximum mass allowed when the caravan is fully loaded will be reduced by 0.4m(1'4").  
 \* Estimated weight or bed size.  
 † Customers should verify the actual dimensions of their touring caravan before committing to anything that could be impacted by these dimensions.
